INTERNSHIP EXPERIENCE

**JOVAC Training, GLA
University Mathura,**

- Learn React Native Hybrid Application Development with many Live Projects

PROJECTS

Responsive Library Application,

- Created A Responsive Library App Using React Native and also used Firebase Database for backend Connection.
- We have made the user experience an easy to use Library app where users can easily find or search for books.
- we have also given the option like - bookmark, short note , and buy book link.

Responsive Calculator Application,

- Created A Responsive Calculator App Using React Native.

BeInTouchWithCompany,

Web Development,

- Our Full Stack project “**BeInTouchWithCompany**” is an online platform which stands for the user benefits where any user can have latest updates for Job, online Quiz, preparation guide, and Blogs.
- We have an admin portal for checking and uploading the latest job application form from the company to end applicants, latest quiz questions, preparation guide material, and latest blogs .
- Designed the Front-end using html and css, and back-end using Maria database.
